#### DETAILED ACTION

1. This office action is in response to the request for reconsideration filed on March 15, 2004, in which claims 25-47 are presented for further examination.

# Response to Arguments

2. Applicant's arguments filed March 15, 2004 have been fully considered but they are not persuasive. (see Examiner's remark).

# **Drawings**

3. The drawings were received on March 15, 2004. These drawings are been placed in the application file.

# Claim Rejections - 35 USC § 102

4. Claims 25-29 and 38-39 are rejected under 35 U.S.C. 102(e) as being anticipated by Shih US Patent no. 6,615,223 (incorporated by reference).

# Remark

Applicants asserted that shih does not disclose at least such a transmitting step and neither in (col.5, lines 16-29) nor anywhere else in Shih are the "recipients of the replication object... determined based on at least one lookup table in the central system". The examiner disagrees with the precedent assertion. The examiner disagrees with the precedent assertion. However, when read and analyzed in the light of the specification, the invention as claimed does not support applicants' assertion. Moreover, the claims do

'Application/Cont Number: 09/937,707

**Art Unit: 2172** 

not capture the essence of the invention as argued in applicants' remark pages 2-3. It is important, applicants are interpreting the claims very narrow without considering the broad teachings of the reference used in the rejection. In paper no. 7, the examiner went through the claims phrase by phrase and referred to the prior art column and line number as to where he has drawn the correspondences between applicants' claims phrases and prior art. By failing to address these correspondences, applicants have failed to rebut the examiner's prima facie case of anticipation uses for a different purpose which does not alter the conclusion that its use in a prior art device would be prima facie anticipation from the purpose disclosed in the reference.

# Conclusion

6. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
